

Joint lunch meeting with
International Facilities Management Association
and ASIS Westchester

February 16, 2017
11:30 am to 2 pm
Reckson Metro Center
360 Hamilton Ave.
White Plains, NY

Kevin Mellott, President of ERASE Enterprises will be speaking about:
Asset Threat Concerns for 2017: Assessing Your Security Exposures

Today's world presents a myriad of security and emergency management concerns for Corporate and Commercial Building Owners and Managers.

Crisis situations occur in many forms ranging from Human Initiated incidents to Natural Disasters.

These Safety and Security concerns for fixed property range from minimal inconveniences to life threatening situations. With the need to address both naturally occurring and human initiated events, an in-depth analysis and assessment is required to properly prepare for the unknown.

Join **IFMA** Westchester-Hudson Valley, **ASIS** Westchester, and **BOMA** CT in welcoming highly acclaimed Global Security Expert, Kevin Mellott who will present the top 5 most commonly occurring threat situations and the top 5 most catastrophic types of incidents that can impact your property.

We will look at some of the innovative technology, policy, and training programs that are available to help you mitigate the potential losses associated with these types of incidents as well as discussing ways to evaluate your site threat assessment process to ensure its validity.

Key security personnel from your organizations are encouraged to attend this highly interactive and critically important session.

Kevin D. Mellott, *ERASE Enterprises*

Mr. Mellott has over 42 years of experience in the field of public safety. Mr. Mellott is internationally recognized as an expert in public safety and special investigations. He has provided training for thousands in industry and government as well as having been selected as the lead instructor for numerous special projects for the United States Military and Law Enforcement Agencies.
